-------------------	-----	------	-------	-----------------------------

1.0 SCOPE

It is a policy of (Your Co) to perform all activities in a manner that reflects a total commitment to quality. This means maintaining the highest standards of quality in all products and services, and a dedication to the principle of maintaining the highest levels of quality and integrity in communicating with people inside and outside of (Your Co). It is also a policy of (Your Co) to prevent production and distribution of products that would pose unreasonable risks to health, safety, or the environment.

It is a goal of the company to encourage all employees to strive for individual excellence in their work and in their association with other people inside and outside of the workplace. (Your Co) strives to motivate employees to achieve this excellence by providing leadership, training, proper materials and facilities, and a cooperative environment.

(Your Co) managers are responsible for developing organizations and systems that accommodate the goal of achieving Customer satisfaction. Managers are to recognize and support employees charged with the responsibility of interfacing with Customers. Employees who are authorized to deal with Customers are responsible for carefully listening to Customers and fully understanding their requirements and expectations. These employees shall be as responsive as possible to those needs within the province and spirit of good business practices. Managers are to monitor Customer satisfaction on a continuing basis, making appropriate adjustments and corrections if problems occur. This Quality Manual is produced to provide guidance and purpose to achieve the policies and goals of (Your Co). This manual of policies and procedures is subject to review by the Customer.¹

(Your Co)'s Mission is to continually improve our products and services to meet our Customers' requirements, allowing us to prosper as a business and to produce a reasonable return on capital investment.

(Your Co)'s Vision is to provide products and services that meet or exceed our Customers' expectations by thoroughly evaluating their unique needs and tailoring our products and performance to those needs.

(Your Co) will design and maintain an effective and economical quality program, covering both processes and products, which makes data available to our Customers that is suitable for determining compliance to established product acceptance criteria and the requirements of the contract.² This is achieved by controlling all work operations and manufacturing processes, as well as all inspections and tests.³ This quality program was developed in consonance with all (Your Co) administrative and technical processes and applies to supplies and services produced at (Your Co) or at any other source to the extent necessary to assure conformance to contractual requirements.⁴

2.0 ORGANIZATION⁵

2.1 General

(Your Co) provides the following management elements: Accounting, Contracts, Environmental, Facilities, G and A, Manufacturing, Products, Purchasing, and Quality. These management elements are directly or indirectly related to product quality.

2.1.1 Direct Management

Product management includes the following groups:

Manufacturing, Products, Purchasing, and Quality

- Manufacturing is responsible for the following functions:

[Redacted]

- Products is responsible for the following functions:

[Redacted]

- Purchasing is responsible for the following functions:

[Redacted]

- Quality is responsible for the following functions:

[Redacted]

All direct management efforts are accomplished using

[Redacted]

2.1.2 Indirect Management

Supportive management includes the following groups:

Accounting, Contracts, Environmental, Health and Safety, Facilities, and G and A

- Accounting is responsible for the following functions:

[Redacted]

- Contracts is responsible for the following functions:

[Redacted]

- Environmental, Health and Safety is responsible for the following functions:

[Redacted]

⁵para 3.1 (2.0-2.3)

Your Company Name	REV	CAGE	DOC#:	4 of 34 Your Procedure #
-------------------	-----	------	-------	-----------------------------

This document may not be disclosed or reproduced in whole or in part without prior written permission from a representative of the Company with the authority to grant such permission.

- Facilities is responsible for the following functions:

[Redacted]

- G & A is responsible for the following functions:

[Redacted]

2.2 Quality Responsibility and Authority⁶

The Quality Group is responsible for facilitation of these policies and procedures.

The quality manager has the responsibility and authority to

[Redacted]

The Quality Group is divided into five units:

- Quality Management and Administration:

[Redacted]

- Quality Engineering:

[Redacted]

- Quality Plans and Procedures:

[Redacted]

- Inspection:

[Redacted]

- Metrology:

[Redacted]

2.2.1 Problem Resolution

Quality problems resulting from a variance to a program requirement are resolved by

[Redacted]

⁶ para 3.1 (2.0-2.3)

Your Company Name	REV	CAGE	DOC#:	5 of 34
			Your Procedure #	

2.3 **Review of the Quality Program**⁷

The Quality Group collects data for determining the acceptability of this quality program, which may include, but is not limited to:

[REDACTED]

Quality Program status review reports, when produced, are

[REDACTED]

2.4 **Initial Quality Planning**⁸

2.4.1 Quality Management

The Quality Group is responsible for [REDACTED]

2.4.2 Contracts Management

The Contracts Group is responsible for [REDACTED]

⁷ para 3.1 (2.0-2.3)

⁸ para 3.2 (2.4)

2.4.3 Products Management

The Products Group is responsible for [REDACTED]

2.4.4 Evaluation Record

Specific elements of the quality effort are detailed in a Compliance Matrix, (Your #), to the extent determined by the Quality Group. A careful review of all documents and referenced documents provided by the contract is performed. The Compliance Matrix serves as a [REDACTED] and is required to list the following:

[REDACTED]

The Compliance Matrix serves as the planning record to monitor compliance to the tasks, assignments, and completion dates produced by the Work Breakdown Structure.

Planning for indoctrination and training of inspection personnel performing work that affects quality is [REDACTED]

2.4.5 Training

Training efforts are based upon the quantity of work to be performed, and the experience and/or education of the personnel performing the work.

When the work is limited [REDACTED]

[REDACTED]

2.5 Work Instructions⁹

2.5.1 Preparation

All work affecting quality is described by [REDACTED]

[REDACTED]

2.5.2 Mfg/QA Traveler/Planner (Optional)

The Mfg/QA Traveler/Planner or Operation Sheet (OS), (Traveler), is designed to [REDACTED]

[REDACTED]

⁹para 3.3 (2.4.4; 2.4.5; 2.5)

Your Company Name	REV	CAGE	DOC#:	7 of 34
			Your Procedure #	

After approval, the IIS is

2.5.4 Manufacturing Procedure

The Manufacturing procedure does not specify 'how to do' the task, but rather specifies 'what to do' for the work function.

The Manufacturing and Products Groups have lead responsibility for creating Manufacturing procedures. The Products, and Quality Groups have collateral responsibilities for this function related to providing The Manufacturing or Products Group prepares the Manufacturing procedure by performing tasks that may include, but are not limited to:

[Redacted list of tasks]

Prepare the Manufacturing procedure using form (Your #). The procedure may include, but is not limited to:

Scope of the operation	Model/Type of equipment
Theory of operation	Production operations; 'how-to' details are described in training documents
References to applicable documents	Performance requirements
[Redacted]	[Redacted]
[Redacted]	[Redacted]
[Redacted]	[Redacted]

[Redacted line]

2.6 Records¹¹

2.6.1 General

Data to be recorded includes any record appropriate to the economical and effective operation of [REDACTED]

2.6.2 Record Verification

The Quality Group verifies records for [REDACTED]

2.6.3 Record Maintenance

The Document Control Center maintains archive files for records. Records are maintained as directed by the contract, or for [REDACTED]

2.6.4 Active Records

Records for active contracts are maintained in the quality department handling the operations. Records are removed [REDACTED]

2.6.4.1 Objective Evidence

Records are collected or produced to the extent necessary to [REDACTED]

2.6.5 Analysis and Use of Records

When product or process abnormalities or defect trends are detected, [REDACTED]

2.6.5.1 Defect Trends

Inspectors are instructed to prepare form (Your #), Notice of Defect Trend, following its format, whenever defects exceed [REDACTED]

Progress of the corrective action is

2.7.5 MIL-STD-1520

Contract directives that specify use of MIL-STD-1520 are accomplished using

2.8 **Costs Related to Quality**¹⁴

2.8.1 Responsibility

The Quality Group has the lead responsibility for

The quality cost information is organized and summarized in four categories:

- 1-Prevention, 2-Appraisal, 3-Internal Failure, and 4-External Failure.

Quality cost data do not require

2.8.1.1 Prevention Costs

The quality costs relative to the prevention category are those associated with

Appraisal Costs

The quality costs relative to the appraisal category are those associated with

2.8.1.3 Internal Failure Costs

The quality costs relative to the internal failure category are those associated with

¹⁴para 3.6 (2.8)

Your Company Name	REV	CAGE	DOC#:	14 of 34
			Your Procedure #	

2.8.1.4 External Failure Costs

The quality costs relative to the external failure category are those associated with [REDACTED]

2.8.2 Reports

Quality costs may be reported by category or by program, and may [REDACTED]

2.8.3 Cost of Quality Evaluation

The Quality Group has lead responsibility for [REDACTED]

3.0 FACILITIES AND STANDARDS¹⁵

3.1 Drawings, Documentation and Changes

The Quality Group participates in design reviews, and at least one quality representative participates on the Configuration Control Board (CCB). The Quality Group verifies that documents received for application are [REDACTED]

Engineering drawings are reviewed by the Quality Group (Your #) for adequacy and completeness, with corrective action taken regarding discrepancies. Audits are conducted periodically (Your #) and on a random basis to [REDACTED]

3.2 Change Control

Engineering Orders, Requests for Waivers or Deviations, and Engineering Change Proposals are reviewed to [REDACTED]

[REDACTED] Effectivity points for change incorporation are established [REDACTED] for [REDACTED]

¹⁵para 4.1 (3.0)

Your Company Name	REV	CAGE	DOC#:	15 of 34
			Your Procedure #	

changes that have been approved, and deliverable documents are [REDACTED]

3.2.1 Supplier Change Control

Supplier change authority and control is specified in [REDACTED] and [REDACTED]

3.3 Design Review Participation

3.3.1 Protection of Quality During Production, Storage, and Use.

The Quality Group provides input at Design reviews for new, pending, and existing contracts. Product protection design factors are considered, such as, but not limited to:

[REDACTED]

3.3.2 Inspection and Test Planning¹⁶

Product inspection and test design factors are considered, such as, but not limited to:

[REDACTED]

Pursuant to contract requirements, any precision measurement need exceeding [REDACTED]

3.4 Measuring and Test Equipment¹⁷

3.4.1 Application

All measuring and test equipment instruments and devices used to determine an item's conformance¹⁸ to specified requirements are [REDACTED]

¹⁶para 4.5 (3.3.2)

¹⁷para 4.2, 4.3 (3.4)

Your Company Name	REV	CAGE	DOC#:	16 of 34
			Your Procedure #	

[Redacted]

New measuring and test equipment instruments and devices received by (Your Co) are evaluated by the Quality Group at receiving inspection to [Redacted]

[Redacted]

3.5 Use of Contractor's Inspection Equipment¹⁹

3.5.1 Availability

(Your Co) owned gauges, inspection devices and test equipment are made available for use by Customers when there is a need to verify product conformance with specified requirements. The Customer's use of the equipment is routinely under the direct observation of [Redacted]

[Redacted]

¹⁸(3.4.1) e.g., a measuring instrument reports a thickness, but a load of 200 lbs is required -- the psi gage and measurement instrument must be calibrated; all process and product measurement instruments require calibration unless the term 'approximate' is used to specify a 'process' parameter -- this exception is only applicable to 'processes'

SUPPLIER SURVEY

Audit and HDBK 50 Question Number	MIL-Q-9858 Paragraphs	Acceptable	In space under 'Acceptable' enter 'Y' for conformance, 'N' for Nonconformance, or 'X' for Not Applicable. Under comments enter terse statement describing nature of nonconformance for each 'N' entry. Comments are mandatory for all objective evidence observed.
40. (7)	Is there appropriate monitoring by the supplier of all changes not requiring Customer approval?		
41. (8)	Does the program clearly delineate and cover the supplier's responsibility for controlling and recording design and other changes originating with subtier suppliers?		
42. (9)	[REDACTED]		
[REDACTED]	[REDACTED]		
[REDACTED]	[REDACTED]		
[REDACTED]	[REDACTED]		
4.2 Measuring and Test Equipment			
46. (1)	Are the gauges, testing and measuring equipment necessary to assure that products meet technical requirements available and used?		
47. (2)	Is this test and measuring equipment properly maintained?		
48. (3)	[REDACTED]

[REDACTED]	[REDACTED]		
[REDACTED]	[REDACTED]		
[REDACTED]	[REDACTED]		
4.3 Production Tooling used as a Media of Inspection			
54. (1)	Is all tooling which is used as inspection equipment proved for accuracy prior to use?		
55. (2)	[REDACTED]		
4.4 Use of Suppliers' Inspection Equipment			
56. (1)	[REDACTED]		
57. (2)	Does the supplier provide personnel to perform this inspection, if warranted?		
4.5 Advanced Metrology Requirements			

SUPPLIER SURVEY

Audit and HDBK 50 Question Number	MIL-Q-9858 Paragraphs	Acceptable	In space under 'Acceptable' enter 'Y' for conformance, 'N' for Nonconformance, or 'X' for Not Applicable. Under comments enter terse statement describing nature of nonconformance for each 'N' entry. Comments are mandatory for all objective evidence observed.
58. (1)	Has the supplier reviewed the request for proposal or contract to determine whether or not there are any unusual precision measurement requirements?		
59. (2)	[REDACTED]		
5.0 Control of Purchases			
5.1 Responsibility			
60. (1)	Does the program assure that products and services furnished by subtier suppliers meet contract requirements?		
61. (2)	Does the program provide for the selection of subtier suppliers on the basis of their ability to perform satisfactorily as well as evidence of their capability to produce quality products?		
62. (3)	Is objective quality evidence provided by the subtier supplier and is it used to assure effective and economical control of quality?		
63. (4)	[REDACTED]		
[REDACTED]	[REDACTED]		
[REDACTED]	[REDACTED]		
[REDACTED]	[REDACTED]		
[REDACTED]	[REDACTED]		
[REDACTED]	[REDACTED]		
5.2 Purchasing Data			
72. (1)	Does the supplier require his subtier suppliers to have effective control of product quality?		
73. (2)	Do the supplier's purchasing documents contain all of an item's specific design, manufacturing, and testing requirements?		
74. (3)	[REDACTED]		

SUPPLIER SURVEY

Under comments enter terse statement describing nature of nonconformance for each 'N' entry. Comments are mandatory for all objective evidence observed.
6.0 Manufacturing Control			
6.1 Materials and Materials Controls			
79. (1)	Does the supplier inspect subtier supplier's material to the extent necessary upon receipt?		
80. (2)	Does the supplier adjust the extent of receiving inspection on the basis of objective data?		
81. (3)	Does the supplier assure that raw materials conform to		
6.2 Production Processing and Fabrication			
85. (1)	Are all production processes accomplished under controlled conditions?		
86. (2)	Does control include documented work instructions, adequate production equipment, and appropriate working environments?		
87. (3)	Do work instructions provide criteria for determining whether production, processing, and fabrication work is acceptable or unacceptable?		
88. (4)	Does the quality program monitor both the issuance of work instructions and compliance with them?		
89. (5)
