1.0 INTRODUCTION TO TRAINING PROGRAM

This training manual contains the policies and procedures the Company uses to determine its training requirements and to develop its training program. The training program ensures

[REDACTED] this document and submitting revisions to the FAA for approval [REDACTED] to ensure that the training requirements for the Company and employees are [REDACTED]. The Company's training program consists of the following basic components:

- [REDACTED]
- [REDACTED]
- [REDACTED]
- [REDACTED]
- [REDACTED]

The director of training is responsible for [REDACTED] the Company's training program. Any changes to the training program will be [REDACTED]

2.0 BACKGROUND

Persons performing maintenance (including inspections), preventive maintenance and alteration must [REDACTED]

[REDACTED] be trained according to the [REDACTED] separate areas of study for the following staffing categories:

- [REDACTED]
 - [REDACTED]
 - [REDACTED]
 - [REDACTED]
 - [REDACTED]

This document may not be disclosed or reproduced in whole or in part without prior written permission from a representative of the Company with the authority to grant such permission.

The Company further breaks down the training requirements for each staffing category based on [REDACTED] training requirements. The procedures in this manual enable the Company to [REDACTED] training consistent with all regulatory requirements.

3.0 TRAINING NEEDS ASSESSMENT

The Company's needs assessment is a two-part process that determines [REDACTED]

1. Overall Repair Station Needs.

To determine its overall training requirements, the Director of Training and the managers of each technical area must [REDACTED]

[REDACTED] be assessed against the standard established for the position and tasks assigned. If it is determined that an employee does not possess [REDACTED]

[REDACTED] The Company continuously evaluates [REDACTED] the training program when:

criticality of the training and the ability of the repair station to assess the information imparted.

NOTE: The repair station should set forth its method of tracking audits.

3. Training Instructors.

Instructors shall be qualified based upon [REDACTED] knowledge and/or certification. The ability to impart information can be determined by [REDACTED]

6.0 TRAINING DOCUMENTATION

The director of training is responsible for [REDACTED] an electronic summary of all [REDACTED] assessment findings, a list of FAA certifications, other applicable [REDACTED] location and the results of any associated examination. The Company will make the training records of employees performing maintenance (including inspection), preventive maintenance and alteration tasks available to [REDACTED] and for two years thereafter.

7.0 MEASUREMENT OF TRAINING EFFECTIVENESS

The training department will [REDACTED] work with the quality manager to resolve any [REDACTED] employee's performance. This could include [REDACTED] to establish a basis for determining [REDACTED]

8.0 REVISION PROCESS

The process for submitting changes is described in the Company's QCM.

NOTE: Alternatively, if the repair station wishes this training program to stand on its own, it may describe the method for changing this approved program in this section.

This document may not be disclosed or reproduced in whole or in part without prior written permission from a representative of the Company with the authority to grant such permission.

9.0 WORK PERFORMED FOR PART 121, 125, 129, AND PART 135 OPERATORS

The Company performs work for **14 CFR parts 121, 125, 129 and 135** Operators. Individual Operator training requirements [REDACTED]

[REDACTED] will work with each Operator [REDACTED]

[REDACTED] during the individual's needs assessment.

10.0 WORK PERFORMED BY INTERIM MAINTENANCE EMPLOYEES

During periods of heavy workload, the Company may [REDACTED]

[REDACTED] ensure all individuals are provided [REDACTED]
